

### 3) Wiki Page through Github.

The screenshot shows a web browser window displaying a GitHub Wiki page. The browser's address bar shows the URL: <https://github.com/Gayathreelyer/Advanced-Software-Engineering/wiki/First-wiki-page>. The GitHub interface includes a repository header with the name 'Gayathreelyer / Advanced-Software-Engineering' and navigation links for 'Code', 'Issues', 'Pull requests', 'Boards', 'Burndown', 'Wiki' (which is active), 'Pulse', 'Graphs', and 'Settings'. The 'Wiki' section shows '0 Watch', '0 Star', and '0 Fork'. The main content area is titled 'First wiki page' and includes a sub-header 'Gayathreelyer edited this page 20 minutes ago · 3 revisions'. The page content reads: 'Welcome to the Advanced-Software-Engineering wiki!' followed by 'This is an image of sky..! Sky'. On the right side, there is a 'Pages' sidebar with links to 'Home' and 'First wiki page', and a button to 'Add a custom sidebar'. Below this, there is a section 'Clone this wiki locally' with the URL 'https://github.com/Gayathreelyer/Advanced-Software-Engineering' and a 'Clone in Desktop' button. At the bottom right, there is a 'Sign in now to use ZenHub' button. The Windows taskbar at the bottom shows the search bar and several application icons, with the system clock indicating 5:26 PM on 8/26/2016.

Image of sky added in the wiki page can be seen in the desktop Github.
